WASHINGTON, June 9, 2017 – Tyson Foods Inc., a New Holland, Pa. establishment, is recalling approximately 2,485,374 pounds of ready-to-eat (RTE) breaded chicken products due to misbranding and undeclared allergens, the U.S. Department of Agriculture’s Food Safety and Inspection Service (FSIS) announced today. The products could contain milk, a known allergen, which is not declared on the product label.

The RTE breaded chicken items were produced and packaged on various dates from Aug. 17, 2016 through Jan.14, 2017. The following products are subject to recall: [\[View Labels](#) (PDF only)]

The products subject to recall bear establishment number “P-1325” inside the USDA mark of inspection. These items were shipped for institutional use nationwide. According to Tyson’s records, schools have purchased products through the company’s commercial channels.

The problem was discovered on June 6, 2017, when the company received notification from an ingredient supplier that the bread crumbs the company received and used in the recalled products potentially contained undeclared milk.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about an injury or illness should contact a healthcare provider. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers with questions about this recall can contact Christina Self, Supervisor-Consumer Relations, at (866) 328-3156. Media with questions about the recall can contact, Caroline Ahn, Communications Manager, at (312) 614-6047.
